4.0 CONTRIBUTIONS OF COICOP DIVISIONS TO ANNUAL INFLATION RATE (YoY)

Annual National Consumer Price Inflation (year-on-year) for January 2023 stood at 38.48 percent, up by 1.39 percentage points from 37.09 percent in December 2022. Of the 38.48 percent, the following COICOP divisions made the most impacts in relation to their weights: Food and Non-alcoholic Beverages (19.15 percent); Transport (2.73 percent) and Furniture, household equipment and Household Maintenance, which has just overtaken Restaurants and Hotels, (2.91 percent).

Figure 2: Contributions of the COICOP divisions to inflation rate

Concluding Note: We noted that a sustained increase in the year-on-year national inflation rate in in 2022 has continued to January 2023. Further observations show that the national estimate is above the estimates of the Western, Eastern and Northern regions' but below the Southern and North-west regions' estimates. Food and non-alcoholic beverages continues to make the most impact on national inflation and is increasing every month; however due to increase in mobile communication tariffs, Communication served as the highest driver in the month of January 2023.

5.0 CPI COMPARISON FOR SELECTED ECOWAS MEMBER STATES

All selected countries, except Nigeria, reported decreased inflation rates for the month of December 2022. The inflation estimates for all countries this year indicate upwards trend; that is, general price increases. All countries are now reporting double digit inflation, with Sierra Leone, 37.09 and Ghana, 54.1, reporting very high inflation rates.

Figure 3: Recent inflation rates of selected ECOWAS countries

NOTE: The National CPI measures the change in prices, on average, from month to month, of the goods and services bought by households, in Freetown, Bo, Kenema, Kono, Makeni, Port Loko-Kambia and include all expenditure groups. Prices are collected for least 440 items. All prices collected are the prevailing retail market prices from six (6) markets in Freetown and, three (3) Markets each in Bo, Kenema, Kono, Makeni, Port Loko-Kambia and for weekly prices and other outlets for monthly items whose prices are less likely to fluctuate rapidly. We are using the Modified Laspeyres formula to compute indices according to the Classification of Individual Consumption by Purpose (COICOP) with 12 functions.

Sierra Leone has recently rebased the CPI to December 2021, increased the number of items in the basket and expanded the coverage to North-West region.
